# TECHNICAL FEATURES

Special 6-sections treatment table for osteopathy, chiropractic and manual therapy, based on the renowned mcManis table

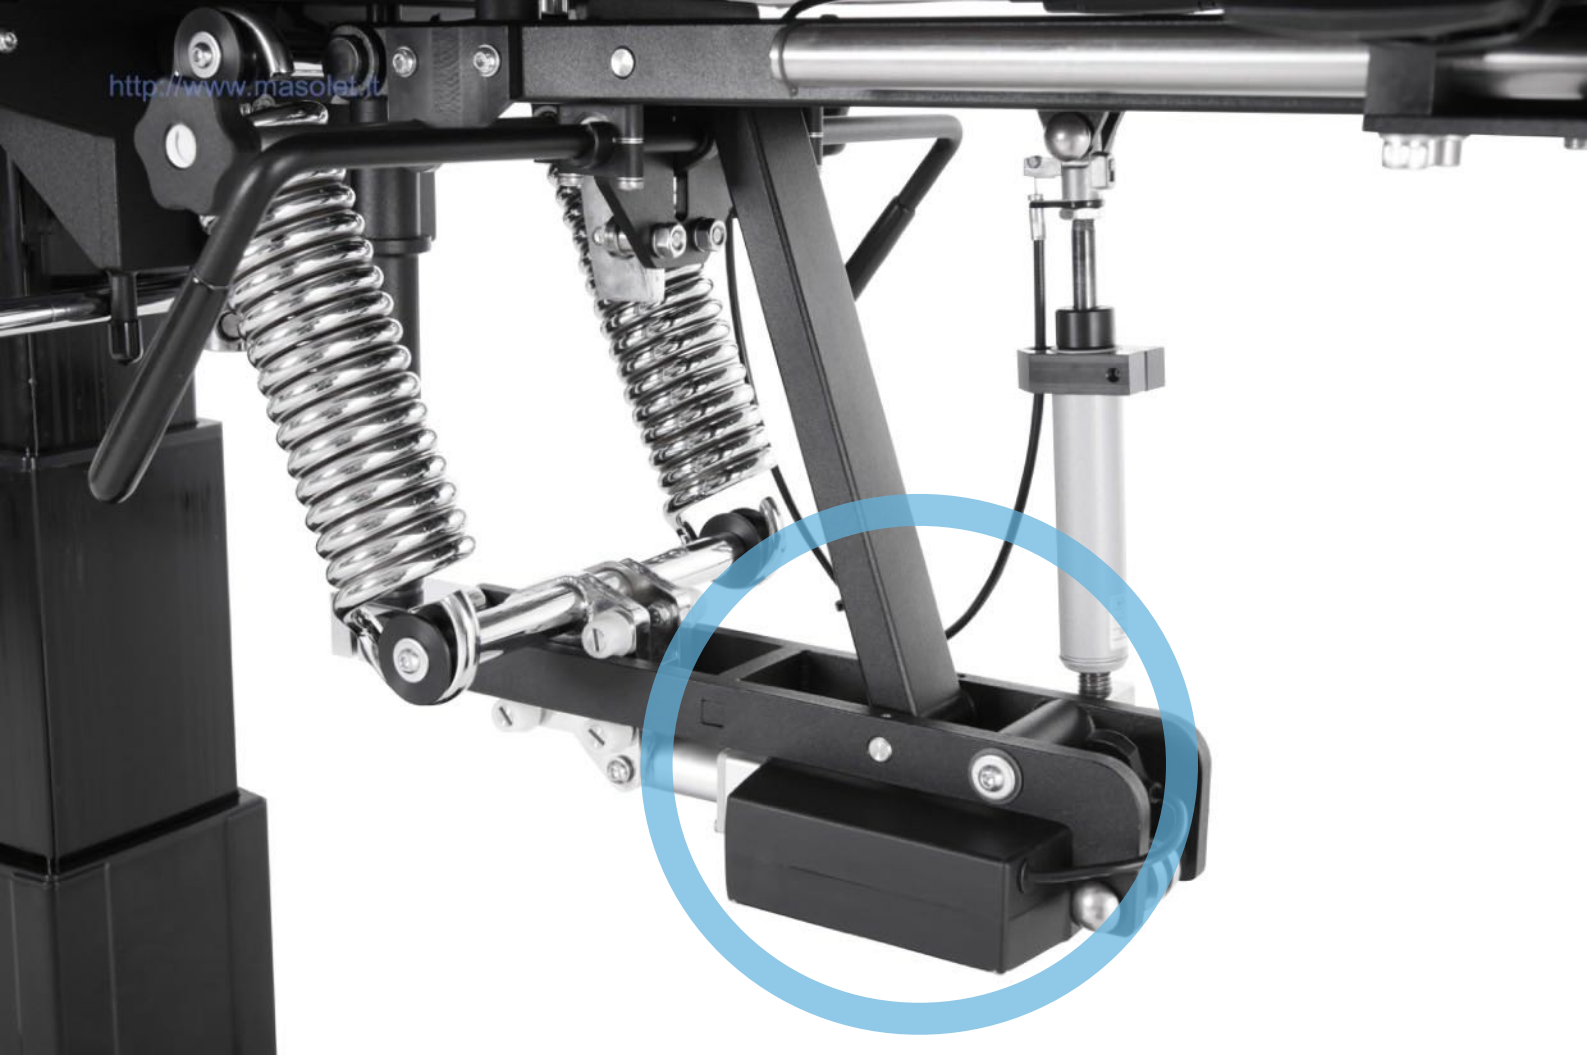

Width	51 cm
Lenght	188 - 208 cm
Height adjustment	93-53 cm
Max load	180 kg
Weight	135 kg

Height-adjusted by the most powerful (200 kg) and fastest (24 mm/sec) motor of the market.

Height adjustment activated by up/down foot pedals on each side of the table.

The buttons are finely integrated into the compact support base.

An additional motor, operated from both sides of the table, adjusts the spring's tension, nullifying the patient's weight on the rear section.

**1** Fixation straps

When the patient's weight is equilibrated by the springs, the low back can be mobilized with minimum effort.

The lower section flexes downward  $-25^{\circ}$  and side bends  $9^{\circ}$  left and  $9^{\circ}$  right. The two functions can be activated together or singularly.

The compact support base ensure your maximum comfort. No more bumps in your legs due to bulky table frames.

The rear section can optionally be equipped with drop function. Drop tensioning is adjusted by a knob and activated by a switch.

The multifunction head section flexes upward  $25^{\circ}$  and downward  $-35^{\circ}$ .

The multifunction mechanism ensure the maximum patient comfort when in side lying.

A pair of height adjustable underarm supports, optimize the position in prone.

The treatment table is stable and unmovable on the floor.

A dedicated lever activates the wheel system, moving the table easily.
